LETTER OF TRANSMITTAL.

U. S. DEPARTMENT OF AGRICULTURE,
OFFICE OF EXPERIMENT STATIONS,
Washington, D. C., December 1, 1906.

SIR: I have the honor to transmit herewith manuscript of a bulletin containing the organization lists of agricultural colleges and experiment stations in the United States. The matter has been compiled under my direction by Miss M. T. Spethmann and Miss Mary A. Agnew of this Office, and I recommend its publication as Bulletin 176.

Respectfully,

A. C. TRUE,
Director.

HON. JAMES WILSON,
Secretary of Agriculture.

COURSES OF STUDY.

There are seven regular courses of study, each requiring four years for completion, viz, general science, agriculture, domestic science, mechanical engineering, electrical engineering, architecture, and veterinary science. The first six lead to the degree of B. S. and the seventh to the degree of D. V. M. Four short courses—domestic science, requiring two terms of twelve weeks; farmers' courses, requiring two winter terms of ten weeks, and dairy and farm dairy courses, requiring ten weeks each, are also offered. The degree of M. S. is given upon postgraduate study after two years, one of which must be resident.

COURSES OF STUDY.

Among the numerous courses of study offered by the university is one which leads to the degree of bachelor of the science of agriculture. This course requires four years, and during the last two years the student selects most of his studies in work given by the departments of the college of agriculture. Postgraduate courses leading to advanced degrees are provided. The following opportunities are also offered: General agricultural special work, and nature-study special course, one or two years; winter courses of eleven weeks in agriculture, poultry husbandry, horticulture, dairy industry and home economics; reading courses for farmers and farmers' wives; and nature-study correspondence work.

COURSES OF STUDY.

The long course requires four years, leading to the degree of B. S. The short course covers two terms of fourteen weeks each. A certificate is granted to those completing the course. The winter dairy course lasts twelve weeks, and requires for admission

six months' previous training in a creamery or cheese factory. A summer dairy course is offered to a limited number of students, who will be admitted without previous factory training and may remain the whole season. To secure a dairy certificate the student must have two seasons' actual practice in a factory, one of which must follow his work at the dairy school. A two-week farmers' course, limited strictly to persons who are at least twenty-five years of age, is also offered.
